Falling Into Grace is a dazzling, clear, profound book—a cool drink of water for thirsty hearts everywhere.—Geneen Roth, author of Women, Food, God

The path to enlightenment today is cluttered with concepts: Adyashanti cuts through them with a sword so merciless and tender that only space remains.—Meg Lundstrom, author of What to Do When You Can’t Decide

Adyashanti’s teachings point us toward what we most yearn for: realizing and embodying the love and awareness that is our natural state. Falling Into Grace is wonderfully lucid, simple, and powerful. It will remind you to stop the struggle and to relax back into what you already are.—Tara Brach, author of Radical Acceptance

Adyashanti asks us to let go of our struggles with life and open to the full promise of mindfulness and spiritual awakening: the end of delusion and the discovery of our essential being. In his many years as a spiritual teacher, Adyashanti has found the simpler the teaching, the greater its power to initiate this awakening. In Falling into Grace, he shares what he considers fundamental insights that will spark a revolution in the way we perceive life—through a progressive inquiry exploring the concept of a separate self and the choice to stop believing the thoughts that perpetuate suffering: “taking the backward step” into the pure potential of the present moment; why mindfulness and spiritual awakening can be a disturbing process; absolute union with every part of our experience and true autonomy—the unique expression of our own sense of freedom.

Excerpt:

When I was a young child, about seven or eight years old, one of the things I started to notice and ponder as I watched the adults around me was that the adult world is prone to suffering, pain, and conflict. Even though I grew up in a relatively healthy household with loving parents and two sisters, I still saw a great deal of pain around me. As I looked at the adult world, I wondered: How is it that people come into conflict? As a child, I also happened to be a great listener—some may even say an eavesdropper. I would listen to every conversation that went on in the house. In fact, it was a family joke that nothing happened in the house without me knowing about it. I liked to know everything that was going on around me, and so I spent a lot of my childhood listening to the conversation of adults, in my home and in the homes of relatives. Much of the time, I found what they talked about to be quite interesting, but I also noticed a certain ebb and flow to most of their discussions—how conversations moved into a little bit of conflict, then back away from it.

Just to qualify myself, I’ve been in recovery (AA) many years and am spiritual but am not a member of any particular church or faith. I enjoy reading and learning about spirituality. Hopefully that intro is useful and provides context for my review. I loved Falling into Grace. He clearly is similar in that he doesn’t restrict himself to one book or faith or teachings. He is interested in truth. While somewhat deep for me, it was never a difficult read. It is thoughtful and useful while keeping the reader feeling light. For today anyway, I can not help but be aware of my dualistic thinking and how to get beyond it daily after reading Adyashanti. It probably won’t happen anytime soon but I would love to attend one of his talks or classes as Adyashanti’s style of writing reveals a wonderful personality and teacher if you look and feel between the lines. Adyashanti is one of my new favorites. I don’t know if my spiritual journey is similar to anyone else’s but if you heard anything in common in my intro, I’ll bet you’ll enjoy this book and hopefully, find it as useful as I have.
